## Statistical program for 2024

### I. Introduction

Statistical program for 2024 (hereinafter–The program) was developed in accordance with the Law of the Kyrgyz Republic “On Official Statistics” in order to provide the state and society with official statistical information.

The goals of the Program are to plan the activities of the national statistical system, effectively coordinate the work of producers of official statistics, provide a legal basis for the collection of individual data from respondents and regulate the receipt of administrative data from government bodies.

The program contains:

- a list of official statistical information produced by the National Statistical Committee of the Kyrgyz Republic (hereinafter referred to as the National Statistics Committee) and National Bank of the Kyrgyz Republic;
- statistical surveys conducted by the National Statistical Committee, based on approved statistical work forms;
- a list of administrative data of government bodies used for statistical purposes;
- major developments in the field of official statistics;
- a list of indicators of the Sustainable Development Goals developed by the National Statistics Committee and other government bodies of the Kyrgyz Republic;
- information about the organizational activities of the National Statistics Committee.

To ensure the confidentiality of information received from respondents (individuals, legal entities and households), producers of official statistics use it exclusively for statistical purposes and are personally responsible for its disclosure in accordance with the criminal law and legislation of the Kyrgyz Republic on offenses.

The Program uses the following terms and their definitions:
