Food security and poverty information bulletin of the Kyrgyz Republic - B.:
Natstatcom of the Kyrgyz Republic, 2013:- 131C

Food security and poverty information bulletin of the Kyrgyz Republic contains the analysis of the situation on food provision in the country for 2012. The bulletin combines and systematizes materials on food availability, its production, indicators of access to food, data on its consumption per capita.

Annexes of the bulletin contain review of hydro-meteorological conditions on the territory of the Kyrgyz Republic in the IVth quarter of 2012, information on average retail prices for food for the IVth quarter of 2012, estimates on food balance for 2012 by basic foodstuff, nutrition balance in kind of energy value by results of integrated survey of 5016 households for the Ist half of 2011-2012, as well as food security indicators.

While using statistical data in mass media and scientific papers, disseminating these data through information nets, hard copies, CD discs and other, users have to refer to their source (article 17 of the Law on State Statistics).

Conventional signs:

- Event is not existing;
- ... Data are not available;
- 0,0 Negligible and insignificant value.

In separate cases insignificant discrepancies between total and sum of components are explained by rounding.

OVERVIEW

Gross domestic product (GDP) calculated by production method, in 2012, according to preliminary estimation, has been valued at 304350,1 million KG Soms and has decreased by 0,9% in comparison with 2011.

Page 6

In December 2012, Consumer Price Index (CPI) characterizing inflation rate, in comparison with the previous month has made up 101,5% and in comparison with December 2011 – 107,5%.

Page 7

In January-December 2012, gross output of agriculture, hunting and forestry products was valued at 167505,3 million KG Soms and the physical volume index has made up 101,2%.

Page 10

In 2012, grain harvest (excluding grain and leguminous, rice and buckwheat) by country as a whole was less by 151,2 thsd. tons, or by 10,2% in net weight including wheat – by 32,4% than in the previous year.

Page 11

In January-December 2012, producer prices for sold agricultural products have increased by 1,6% in comparison with the corresponding period of the previous year.

Page 13

Introduction

Pursuant the Rome Declaration, adopted on November 17, 1996 during the World Food Summit, the Kyrgyz Republic as a member of the international community assumed responsibility to "...conduct a policy aimed to the alleviation of poverty and inequality, provision of physical and economical access to all people and at all times to sufficiently dietary adequate food and as well as to its use".

In 1999, the Government of the Kyrgyz Republic, in cooperation with the European Commission in the Kyrgyz Republic has developed and adopted a National Food Security Policy. The policy (and EC funding under the EC-Food Security Programme) sustains reforms in food security related to such sectors as agriculture and social protection.

Food security is a physical availability of a foodstuff in the required quantity, possibility of access to indicated foodstuff (the products made in households, and acquired through the market, gifts and other sources) and consumption of foodstuff in that quantity which are necessary for maintenance of food needs.

Food and nutrition security presumes the availability of adequate food (in the context of quantity, quality, safety and social and cultural acceptability), provision of access and adequate consumption and digestion of such products by all persons at any time for an active and healthy life.

Food Availability: physical existence of quantitatively and qualitatively adequate and safety food items at any moment of time.

Access: all households and household members have sufficient resources to obtain appropriate food (through production, purchase or donation).

Stability: continuous provision of availability, access and use of food. If there is no stability, individuals will suffer from chronic or transitory food insecurity

The aim of the KR Food Security and Poverty Information Bulletin is to provide up-to-date and reliable information and analysis of the current food security situation in the country.

The publication of information bulletin on food security was prepared by the National Statistical Committee of the Kyrgyz Republic. The publication contains information provided by Ministry of Agriculture and Reclamation of the Kyrgyz Republic, State Agency on Hydro Meteorology of the Ministry of Emergency of the Kyrgyz Republic. The bulletin was financed by the European Commission in the Kyrgyz Republic and technical support was provided by UN FAO.

Section I. Socio-Economic Indicators

The below socio-economic indicators characterizes the general situation of economy in the country for the analysis of food security situation.

1.1. Gross Domestic Product

Gross domestic product (GDP) calculated by *production method*, in 2012, according to preliminary estimation, has been valued at 304350,1 million KG Soms and has decreased by 0,9% in comparison with 2011. Real growth rate of GDP excluding «Kumtor» mining company made up 5%. The volume of GDP calculated per capita made up 56,9 thsd. soms and in comparison with the previous year has decreased by 2,6%.

Table 1: Main socio-economic indicators

⁵ According to data of the National Bank of the Kyrgyz Republic.

1.2. Prices and Tariff Indices

In December 2012, *Consumer Price Index (CPI)* characterizing inflation rate, in comparison with the previous month has made up 101,5% and in comparison with December 2011 – 107,5%.

In December 2012, prices for foodstuff and nonalcoholic beverages (soft drinks) have increased, in general, by 1,8% in comparison with the previous month.

The highest increase of prices was for vegetables (by 20,1%), dairy products, cheese and eggs (by 4,3%), baked pastry (by 1,3%).

In December 2012, prices for alcoholic beverages have increased by 4,8% in comparison with previous month.

At the same time, in December 2012, prices for flour, cereals, fresh milk, animal fat and apples have decreased

¹ Including volumes of external trade implemented by individuals.

1.3. Labour Market

As of January 1, 2013, according to the data of the Ministry of Youth, Labor and Employment of the Kyrgyz Republic, the number of unemployed population registered in state employment services who search for work, in comparison with the same date of 2012, has increased by 0,3% and the number of unemployed has decreased by 1,2%. The registered unemployment rate has made up 2,4% of the economically active population. From total number of registered unemployed population, 51% were women. There were on the average 8 unemployed persons per one vacant position announced by enterprises.

Table 7: The number of unemployed population registered in state employment services, as of January 1, 2013

Section II. Availability of Food

Availability of food – is a physical availability of safety and sufficient, quantitative and qualitative food at any time.

2. Agriculture

In January-December 2012, gross output of agriculture, hunting and forestry products was valued at 167505,3 million KG Soms and the physical volume index has made up 101,2%.

Table 8: Output of agricultural products

	As a percent to

Chui oblast	38537,3	95,9	23,0
Bishkek city	445,9	90,9	0,3
Osh city	708,2	100,6	0,4

2.1. Crop production

In 2012, total sown area used for agricultural crops has made up 1165,7 thsd. hectares, that was higher by 6,5 thsd. hectares (by 0,6%) than in the previous year. Grain crops (excluding grain and leguminous, rice and

buckwheat) have made up 568,6 thsd. hectares (48,8% of total sown area), grain and leguminous, respectively - 49,2 thsd. hectares (4,2%), oil plants - 54,5 thsd. (4,7%), cotton - 31 thsd. (2,6%), tobacco - 3,4 thsd. (0,3%), sugar beet (manufactured) - 5,6 thsd. (0,5%), potatoes - 81,6 thsd. (7,0%), vegetables - 45,4 thsd. (3,9%), other crops (rice, melons and other) - 16,4 thsd. (1,4%) and feed crops - 310,0 thsd. hectares (26,6%).

About half of total sown areas of the country are used for grain crops (excluding grain and leguminous, rice and buckwheat). However, their area in 2012 decreased, mainly, due to reduction of wheat planting by 52,9 thsd. hectares (by 14%). Here at, the sown area of winter wheat reduced by 70 thsd. hectares (by 28,2%), and spring wheat, against, increased by 17,1 thsd. hectares (by 13,1%).

Barley was sown more than in 2011 (by 24,0 thsd. hectares or in 1,2 times) and corn for grain (by 20,8 thsd. hectares or in 1,3 times).

Sown areas of grain and leguminous, vegetables, melons and feed crops were increased due to reduce of planting of grain (excluding grain and leguminous, rice and buckwheat), oil plants, cotton, tobacco, sugar beet and potatoes. The area used for feed crops increased by 16,8 thsd. hectares or by 5,8%.

In last year, the area of unused arable land decreased by 8,0 thsd. hectares and made up 103,5 thsd. hectares in comparison with the previous year. The main reasons for non-use of arable land, as in the previous year, are hard dry (52,1 thsd. hectares), remoteness and stony (18,2 thsd. hectares), absence of irrigation and defect (disrepair) of irrigation system (13,3 thsd. hectares), salinization and swampy (5,8 thsd. hectares), lack of fuel and lubricants, seeds and technique (2,6 thsd. hectares), lack of funds (5,2 thsd. hectares).

In 2012, 2,6 thsd. hectares of grain and grains-leguminous crops planting (excluding rice and buckwheat), 151 thsd. hectares of oil crops, 35 hectares of cotton, 84 hectares of vegetables, 53 hectares of potatoes, 31 hectares of tobacco and 285 hectares of sugar beet fogged off and were written off due to bad weather and climatic conditions. The main reasons of fogging off these crops were dry, lack of water, cloudburst rainfall and hail on the territory of Djalal-Abad, Issyk-Kul, Osh and Chui oblasts.

Table 10: Production of basic agricultural crops in 2012

	Gross yield, thsd. tones	As a % to 2011

Melons	193,3	127,5
Fruits and berries	222,7	103,6

In 2012, totally by country, grain (excluding grain and leguminous, rice and buckwheat) in net weight was gathered by 151,2 thsd. tones or by 10,2% including wheat (by 32,4%) less than in the previous year.

**Table 11: Production of grain (excluding grain and leguminous, rice and buckwheat) by territory in 2012
(net weight)**

	Gross yield, thsd. tones	As a % to 2011
Kyrgyz Republic	1333,8	89,8
Batken oblast	89,7	116,4
Djalal-Abad oblast	223,4	117,1
Issyk-Kul oblast	127,5	72,3
Naryn oblast	48,8	86,7
Osh oblast	281,8	111,8
Talas oblast	53,5	85,6
Chui oblast	503,1	75,7
Osh city	6,0	114,7

In 2012, on the average by country, yield of grain crops (excluding grain-leguminous, rice and buckwheat) made up 23,4 centner from a hectare (in net weight) against 25,8 centner from a hectare – in the previous year, including wheat - 16,8 centner from a hectare (in net weight) against 21,4 centner from a hectare, respectively.

In 2012, winter crops, totally by country, were sown more by 27,0 thsd. hectares (by 14,1%) than in the previous year.

Table 12: Winter crops sowing by territory

	Sown for harvest in 2013, total thsd. hectares	As a % to the previous year
Kyrgyz Republic	220,2	114,1
Batken oblast	8,8	99,0
Djalal-Abad oblast	19,1	b 2 p.

Osh oblast	41,1	b 1,7 p.
Talas oblast	9,5	95,7
Chui oblast	131,8	98,7
Osh city	0,02	-

In autumn of the previous year, 73,3 thsd. hectares were fall-plough, that was more by 8,3 thsd. hectares (by 12,7%) than in 2011.

2.2. Livestock Production

In 2012, the production of main livestock products has increased in comparison with the previous year.

Table 13: Production of main livestock products in farms of all categories in January-December 2012

	Produced-total, tones				As a % to the corresponding period of the previous year			
	2011		2012		2011		2012	
	December	January-December	December	January-December	December	January-December	December	January-December
Livestock and poultry for slaughter (in live weight)	33219	346540	32736	352526	101,1	101,0	98,5	101,7
Raw milk	83450	1358094	87175	1382426	100,2	99,9	104,5	101,8

	Livestock and poultry for slaughter (in live weight)	Raw milk	Eggs, thsd. pieces	Wool (in physical weight)
<i>As a % to the previous year</i>				
Kyrgyz Republic	101,7	101,8	106,1	102,1
Batken oblast	101,2	101,3	100,9	101,2
Djalal-Abad oblast	102,5	101,9	103,9	103,2
Issyk-Kul oblast	103,3	103,4	95,4	101,4
Naryn oblast	100,3	100,1	100,2	101,0
Osh oblast	101,2	102,0	102,7	101,0
Talas oblast	100,8	101,1	105,1	105,1
Chui oblast	102,3	101,6	113,2	102,8
Bishkek city	89,5	63,2	93,0	100,0
Osh city	101,3	101,9	102,3	100,0

Production of livestock and poultry for slaughter (in live weight) increased by 3,3% in farms of Issyk-Kul oblast, Djalal-Abad oblast - by 2,5%, Chui oblast – by 2,3%. Milk yield from one cow was high in farms of Issyk-Kul oblast (by 3,4%) and Osh oblast (by 20%). The average milk yield per cow made up 2023 kg.. Milk yield was high also in farms of Chui oblast (2883 kg), Talas oblast (2265 kg) and Issyk-Kul oblast (2083 kg). Production of eggs increased in farms of Chui oblast (by 13,2%) and Talas oblast (by 5,1%). 151 eggs were produced from one laying hen in farms of Chui oblast, 147 eggs – in Issyk-Kul oblast. From total volume of clipped wool, 95% was sheep wool. 2,9 kg of wool was clipped from one sheep in Talas and Chui oblasts, 2,6 kg – in Issyk-Kul and Osh oblasts. In 2012, 667,0 thsd. calves, that was higher by 2,4 thsd. heads than in 2011, 3354,4 thsd. lambs and goatlings (higher by 111,4 thsd. heads), 222,7 thsd. piggies (at the level of the previous year) were produced in farms of all categories. 79 calves, 92 lambs and goatlings, 68 colts and 1172 piggies were produced per 100 dams available at the beginning of a year.

2.3. Producer Price Index of Agricultural Production

In January-December 2012, producer prices for sold *agricultural products* have increased by 1,6% in comparison with the corresponding period of the previous year. Prices for livestock production increased by 12,3%, while prices for crop production decreased by 9,2%.

Table 15: Producer price index of agricultural production
(as a %)

	Total		including for production			
	to the previous period	to December of the previous year	Crop production		Livestock	
			to the previous period	to December of the previous year	to the previous period	to December of the previous year
January	96,8	96,8	104,8	104,8	91,4	91,4
February	99,3	96,1	96,2	100,8	101,6	92,9
March	101,6	97,6	103,3	104,2	100,4	93,3
April	101,6	99,2	101,9	106,2	101,4	94,6
May	99,1	98,3	100,3	106,5	98,2	92,9
June	99,1	97,4	102,5	109,1	96,6	89,7
July	100,9	98,3	105,1	114,7	97,5	87,4
August	99,1	97,4	96,3	110,4	101,5	88,8
September	97,9	95,3	95,7	105,6	99,8	88,6
October	100,7	96,0	100,4	106,0	101,0	89,4

2.4. Trade of Basic Foodstuffs

The share of foodstuff import in total import value for 2012 has made up 11,1%, export – 10,3%.

**Table 17: Import and export of basic foodstuffs
(thsd. tons)**

	2011	2012
Import		
Bakery products expressed in grain	532,0	681,9
Sugar and confectioneries	91,3	89,8
Vegetable oil	37,1	40,1
The share of foodstuff in total import value, %	12,6	11,1
Export		
Milk and dairy products expressed in milk	126,7	120,1
Sugar and confectioneries	1,1	0,7
The share of foodstuff in total export value, %	8,7	10,3

2.5. Availability of Food Per Capita

The analysis of food balance shows that the availability of foodstuffs per capita on average per month remains stable (see Table 19 and Annex 3).

Table 18: Level of consumption of basic foodstuffs
(*per capita, kg per month*)

	2011	2012*
Bakery products (expressed in grain)	15,8	15,7
of which wheat and wheat processed products (expressed in grain)	14,1	14,1
Potatoes	8,2	8,3
Vegetables and melons	12,5	12,6
Fruits and berries	2,4	2,4
Sugar and confectioneries	1,8	1,7
Meat and meat products	3,2	3,2
Milk and dairy products	17,8	17,9
Eggs, pieces	6,8	6,7
Vegetable fats	1,0	0,9

*Data are preliminary

More detailed information is provided in the Annex (table 3 «Food balance»²).

² Food balances were compiled in accordance with «Methodology of calculation of basic foodstuff balance», approved by the Decree of the National Statistical Committee of the Kyrgyz Republic from September 15, 2010, №19.

Section III. Access to Food

Access: Foodstuff must be accessible both in terms of their physical availability and in terms of purchasing power.

3.1. Consumer Price Analysis

In 2012, growth of consumer prices made up 7,5% against 5,7% in 2011. Intensive growth of consumer prices was in III quarter of 2012 (by 3,1%).

In 2012, prices for *foodstuff and nonalcoholic beverages* increased by 4,5%. The highest growth of prices for one year was observed for fresh fruits (by 27,2%) fish (by 20%). The maximum growth of prices was for flour in September (by 13,2%), that affected change of prices for pastry. Prices for bread by the end of the year have increased by 18,4%, baked products – by 6,1%, pasta – by 5,9%. Prices for dairy produce, cheese and eggs increased by 8%, including cottage cheese – almost by %, milk – about 15%, kefir – by 9,5%.

At the same time, it was observed the decrease of prices for cereals – about 30%, (of which for buckwheat – almost by 36%, wheat - by 24%), animal fats - by 11,5%, granulated sugar - by 5,4%, meat – by 1,2% (including beef – by 4,4%, mutton – by 2,8%, but prices for pork increased by 20,5%).

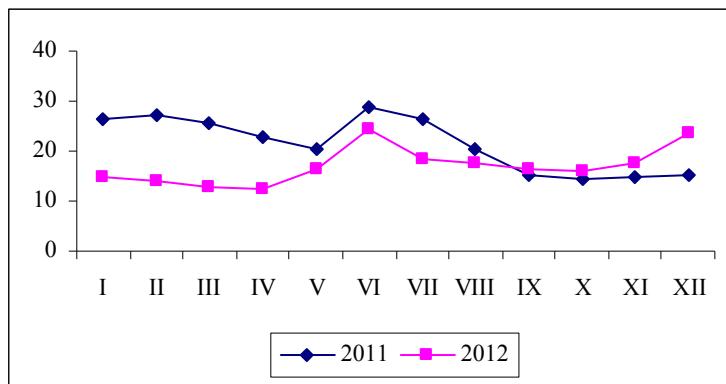

Prices for alcoholic beverages and tobacco totally increased by 10,2%.

Growth of prices was noted in all regions of the country, but the highest increase of prices was in Naryn oblast: for foodstuff and nonalcoholic beverages - by 8%, fish – by 22,7%, fruits – by 17,6%, bakery products and cereals – by 14,8%.

Potatoes. During the 4th quarter of 2012, average consumer prices for potatoes have increased from 15,82 soms per kilo in October to 23,60 soms in December, and the increase has made up 49,2%. In comparison with the 4th quarter of 2011, the average consumer price has increased by 29,5% and made up 19,06 soms per kilo.

Graph 1: Monthly average consumer prices for potatoes

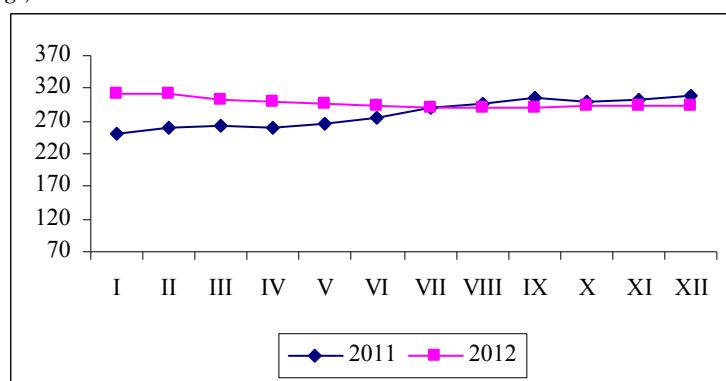

(soms per kg.)

Mutton. In the 4th quarter of 2012, the average consumer price for mutton has decreased by 1% in comparison with the same period of 2011: from 291,31 soms per kilogram in the 4th quarter of 2011 to 288,43 soms per kilogram the 4th quarter of 2012.

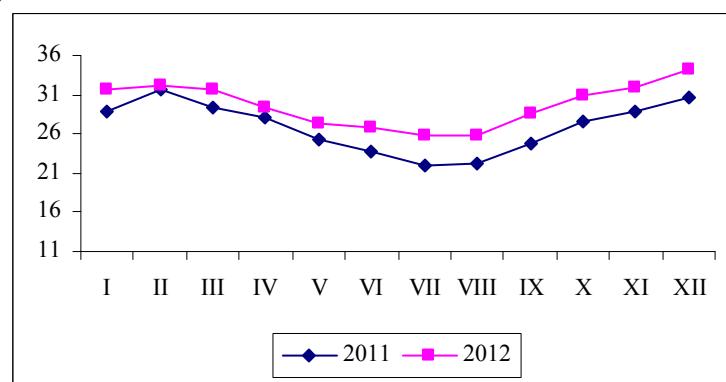

Beef. On the average from October to December 2012, prices for beef have decreased insignificantly from 294,04 soms per kilogram in October to 292,59 soms in December and in comparison with the 4th quarter of 2011 prices have decreased by 3,3%.

Graph 2: Monthly average consumer prices for beef
(soms per kg.)

Fresh milk. During the 4th quarter of 2012, the average price for milk has increased by 10,7 % and in comparison with the 4th quarter of 2011, average consumer price increased by 11,5 % and made up 32,41 soms per kilogram.

Graph 3: Monthly average consumer prices for fresh milk
(soms per kg.)

3.2. Money Income of Population

According to results of households sampling survey, nominal money income per capita in the 1st half of 2012 was valued at 3309,5 KG soms per month and in comparison with the previous year have increased by 16,1 %. The main sources of population money income were income from labour activity, its share in income structure made up 66,8%, incomes from social transfers – 15,8% and from sale of agricultural output produced in private subsidiary plot – 12,7%.

Monthly average per capita real money income of the population in the 1st half of 2012 was valued at 3278,7 KG soms and in comparison with the corresponding period of the previous year increased by 15%.

Size of average per capita disposable income was valued at 3119,5 KG soms. Average per capita disposable money incomes of population living in Bishkek city (by 606,5 soms), Chui oblast (by 435,2 soms) and in Osh oblast (by 32,5 soms) were higher than average republican level. Disposable incomes of population living in Batken oblast (3058,6 soms) and Naryn oblast (2980,2 soms) were close to average republican level. Incomes of population living in Issyk-Kul oblast (2889,6 soms), Talas oblast (2639,1 soms) and in Djalal-Abad oblast (2499,6 soms) were considerably less than average republican level.

The structure of average per capita disposable money incomes of households differs significantly depending on their place of residence. In urban areas, income from labour activity in total revenue has made up 77,2%, in rural areas – 56,5%. The second most important source of income in rural areas was the proceeds of the sale of products produced in private subsidiary plots of population and their share made up 21,2%.

Distribution of total money income by quintile groups of population is for the benefit of 20 % of population with the highest incomes, who have concentrated more than 49% of all money incomes.

**Table 19: Population money income by quintile groups
(as a percent)**

	January-June	
	2011	2012
Money income -total	100	100
including 20 percent groups		
the first (with the lowest income)	6,4	4,8
the third	16,0	14,5
the fourth	23,0	22,2
the fifth (with the highest income)	43,5	49,2
Income ratio of 20% highest and 20% lowest income groups of population, in times	6,7	10,2

The monthly average nominal wages/salaries per employee in 2012 (excluding small enterprises) was valued at 10891 KG soms and in comparison with 2011 has increased by 16,5%, and its real size calculated including consumer price index has increased by 13,3%. Based on official exchange rate stated by the National Bank of the Kyrgyz Republic, monthly average wage/salary per employee in 2012 has made up 232 US dollars.

Section IV. Additional materials

4.1. Food security indicators

(according to the data of the Ministry of Agriculture and Reclamation of the Kyrgyz Republic)

In accordance with the average physiological standards of nutrition, in 2012, estimate indicators of provision of internal food market of the country with basic foodstuff from the harvest of 2012 (including export and import volumes for January-October 2012 and excluding carry-over) have made up: bakery products – 139,3%, potatoes – 152,8%, milk – 112%, meat – 75%, vegetables – 146,3%, fruits and berries – 24%, eggs – 42,6%, vegetable oil - 98,8%, sugar – 63,7%,.

Provision of bakery products (59,1%), potatoes (152,7%), milk (112%), meat (56,9%), vegetables (146,1%), fruits and berries (21,6%), eggs (40,3%), vegetables oils (27,9%) and sugar (9,4%) were due to own production.

According to estimated data, the percent of internal market provision due to own production was low related to sugar, meat, vegetable oil, eggs, fruits and berries. The share of products import in the internal market made up for bakery products - 57,6%, meat – 24,2%, vegetable oil – 71,7%, sugar – 85,3%, fruits and berries – 15,4%.

The main volume of import of fruits and berries related to citreous that are not produced in the country. In view of internal market needs in poultry meat (legs), 24% of meat import related to poultry meat.

In 2012, the Government of the Kyrgyz Republic and the Ministry of Agriculture and Reclamation of the Kyrgyz Republic adopted the set of measures to provide domestic food market with basic foodstuff and food security of the Kyrgyz Republic.

In order to conduct spring field works successfully and implement objectives intended for production of agricultural output by rural commodity producers, within the project «Accessible credits/loans for farmers-2», cash loans in the amount of 304,4 mln. soms were allocated totally by the country for 2850 economic entities to develop crop production.

394,7 mln. soms were allocated for 3423 economic entities to develop livestock farming.

From allocated funds at the amount of 50,0 mln. soms, 30,0 mln. soms were used for purchasing wheat and barley seeds, 20,0 mln. soms – for lucerne and holy clover seeds to use for spring planting in 2012.

In accordance with the decree of the Government of the Kyrgyz Republic dated July 11, 2011 № 382, “Aiyil Bank” joint corporation leased 72 tractors “MT3-82.1”, 17 tractors “YTO-904” and more than 30 units of different agricultural machines.

The rest of 2965,4 m³ of preferential diesel fuel, available in the Fund of state tangible reserves, was distributed for aiyil okrugs (village municipality) and selected peasant farms, the price in the south regions was 35,20 soms per liter, in the north – 33,0 soms per liter.

In 2012, gross agricultural output was produced in current prices at the amount of 167505,3 mln. soms totally by country due to effective measures taken timely. Growth rate made up 101,2% in 2011 including livestock production – 101,8%, crop production – 100,6%.

Anomalous weather and climate changes of the current year affected negatively on decrease of agricultural crops production volumes. So, wheat production volumes decreased by 259,3 thsd. tones in comparison with 2011.

In order to meet needs of population in bakery products the Government of the Kyrgyz Republic reached an agreement with the Government of Republic of Kazakhstan and Russian Federation to purchase grains of food wheat in bulk of 200,0 thsd. tons. This specified amount of wheat will be processed at domestic milling enterprises to take commodity inventory in the food market in the country in order to stabilize prices for socially important food products.

Food security issues were reviewed at the meeting of the Government of the Kyrgyz Republic in June 14, 2012, and at the meeting of Food Security Board in June 5 and August 3 of the current year.

Positive growth rate was in meat production. According to results of 2012, 352,5 thsd. tons of meat in live weight was produced by economic entities of all categories, that was higher by 5986 tons or by 1,7% than in the previous year. The increase of meat production was mainly due to increase of cattle by 39,7 thsd. heads, sheep and goats - by 250,4 thsd. heads, horses – by 10,5 thsd. heads and poultry by 65,4 thsd. heads.

1382,4 thsd. tons of milk has been produced, that is higher by 24,3 thsd. tons or by 1,8% than in the previous year.

416,8 mln. pieces of eggs has been produced, that is higher by 24,0 mln. pieces or 106,1% than in the previous year.

Total activities on food security include activities on timely implementation of veterinary works focused to prevent beginning and spreading of transmissible diseases of animals, production and realization of safety animal products.

In 2012, 49239,8 thsd. heads of livestock and poultry (or by 103,3%) was treated totally by country including: diagnostics of 7364,6 thsd. heads, preventive vaccination of 23341 thsd. heads, dehelminization and other health care treatments of 18534,1 thsd. heads.

171 troubled places with accidents of contagious diseases were registered for the reference/reporting year. 4368 heads of animals were diseased, of which 228 heads died.

From 171 registered infection focal points: murrain - 37, madness - 103, sheep pox - 2, charbon/splenic fever (cattle) - 1, blackleg – 5, bradsot - 2, breeding disease -16, salmonellosis – 4, american bees foul brood - 1. Veterinary and sanitation activities on abolition of diseases were conducted by veterinaries on-the-spot according to instructions.

The Ministry has developed the Strategy of Agriculture Development in the Kyrgyz Republic up to 2020". The main purpose of this Strategy is to provide the population with adequately qualitative and full value food of own production. Adoption of the Strategy will contribute to the further sustainable development of agriculture of the country.

The Kyrgyz Republic has significant land and labor resources, and is able to meet potentially own needs of basic agricultural products and its processed products, and also to export significant volumes to world markets.

4.2. On results of the count of livestock and poultry in the Kyrgyz Republic as of the end of 2012

In December 2012, one time enumeration of livestock and poultry was implemented on the territory of the Kyrgyz Republic in order to define their actual number.

Livestock and poultry were enumerated in state and collective farms, subsidiary farms of enterprises and organization, peasant farms, farms of individual entrepreneurs and private subsidiary plots of the population.

Table 23: Livestock and poultry
(all categories of farms, as of the end of year, heads)

	2011	2012	2012 to 2011	
			+ , -	as a %
Cattle - total	1338583	1367466	28883	102,2
Sheep and goats	5288115	5423881	135766	102,6
Pigs	59202	55380	-3822	93,5
Horses	388971	398796	9825	102,5
Poultry - total	4815308	5076559	261251	105,4
Camels	309	311	2	100,7
Mules	71387	73222	1835	102,6
Rabbits	36546	32836	-3710	89,9
Bee families, piece	91162	89185	-1977	97,8

Enumeration of livestock and poultry in December 2012 certifies that in the country there is a tendency of increasing the number of main types of agricultural animals (excluding pigs).

Table 24: Number of main types of livestock by territory
(all categories of farms, as of the end of 2012)

	Cattle		Sheep and goats		Horses	
	Heads	As a % to total number of cattle	Heads	As a % to total number of sheep and goats	Heads	As a % to total number of horses
Kyrgyz Republic	1367466	100	5423881	100	398796	100
Batken oblast	122164	8,9	468714	8,6	6127	1,5
Djalal-Abad oblast	273136	20,0	1121282	20,7	54227	13,6
Issyk-Kul oblast	191974	14,0	796451	14,7	84423	21,2
Naryn oblast	136552	10,0	940291	17,3	94888	23,8
Osh oblast	314647	23,0	1002482	18,5	84035	21,1
Talas oblast	66291	4,8	498606	9,2	23879	6,0
Chui oblast	251824	18,4	574882	10,6	50410	12,6
Bishkek city	1065	0,1	3773	0,1	234	0,1
Osh city	9123	0,7	16413	0,3	467	0,1
Special enumeration	690	0,1	987	0,02	106	0,03

From total number of cattle, the biggest number of cattle are in farms of Osh oblast (23,0%), Djalal-Abad oblast (20,0%) and Chui oblast (18,4%), sheep and goats – in farms of Djalal-Abad oblast (20,7%), Osh oblast (18,5%), Naryn oblast (17,3%), Issyk-Kul oblast (14,7%), horses – in farms of Naryn oblast (23,8%), Issyk-Kul oblast (21,2%), Osh oblast (21,1%), Djalal-Abad oblast (13,6%).

As of the end of 2012, in comparison with 2011, the number of cattle in farms of Issyk-Kul oblast increased by 3,8%, Djalal-Abad oblast – by 2,5%, Naryn – by 2,3%, Batken and Osh oblasts – by 2,0%, Talas oblast – by 1,4%, Chui oblast – by 1,2%.

From total number of cattle, 2,3% are yaks. Their number increased for one year by 372 heads (or 1,2%) and made up 31537 heads.

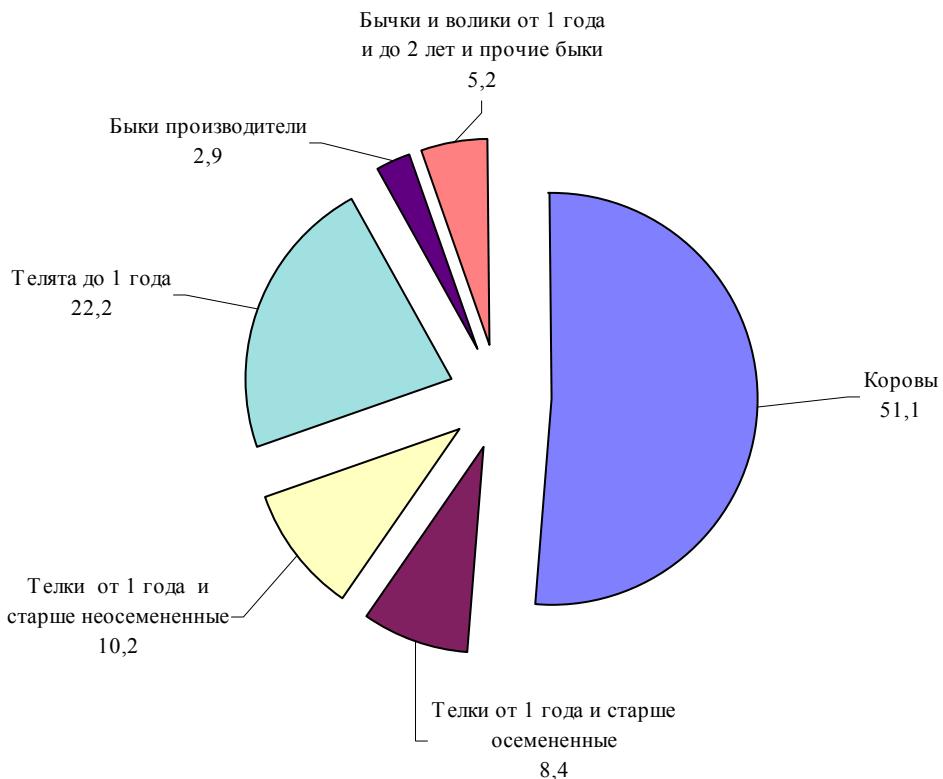

Table 25: Number of yaks by territory
(all categories of farms, as of the end of 2012)

	Heads	As a % to	
		the corresponding date of the previous year	total number of yaks
Kyrgyz Republic	31537	101,2	100
Batken oblast	1530	98,5	4,9
Djalal-Abad oblast	280	82,4	0,9
Issyk-Kul oblast	9448	110,8	29,9
Naryn oblast	13932	99,8	44,2
Osh oblast	5065	92,2	16,0
Talas oblast	291	79,7	0,9
Chui oblast	716	132,6	2,3
Special enumeration	275	71,4	0,9

In 2012, the number of yaks-cows increased by 1,8% and made up 16715 heads.

The biggest share from the total cattle numbers are cows (51,1%) and calves under 1 year (22,2%).

Graph 4: Structure of cattle heads by sex and age groups
(all categories of farms, as of the end of the year, in % to total)

The number of sheep and goats in farms of Djalal-Abad oblast increased by 31,1 thsd. heads, Osh oblast - by 29,9 thsd., Issyk-Kul oblast – by 25,0 thsd., Naryn oblast - by 24,2 thsd., Chui oblast – by 15,6 thsd. and in Talas oblast – by 15,5 thsd. heads.

From total sheep and goats numbers, 17,2% (933,8 thsd. heads) are goats. The biggest numbers are in farms of Djalal-Abad oblast (22,8% from total goats numbers), Batken oblast (22,2%), Naryn oblast (21,6%) and Osh oblast (18,5%).

The horses numbers increased by 2,7 thsd. heads (by 5,8%) in farms of Chui oblast, Issyk-Kul oblast – by 3,3 thsd. heads (by 4,1%), Talas oblast - by 0,6 thsd. (by 2,7%).

Female number of cattle has increased over the 2012, but its share in the structure of herd remained at the level of 51,1%.

Table 26: Female number of main types of livestock

(all categories of farms, as of the end of the year, heads)

	2011	2012	2012 in % to 2011	Share in total number, %	
				2011	2012
Cows	684157	699339	102,2	51,1	51,1
Female sheep and goats and female lambs over 1 year	3634985	3744892	103,0	68,7	69,0
Main female pigs	19007	18143	95,5	32,1	32,8
Mares aged 3 years and over	189553	197778	104,3	48,7	49,6

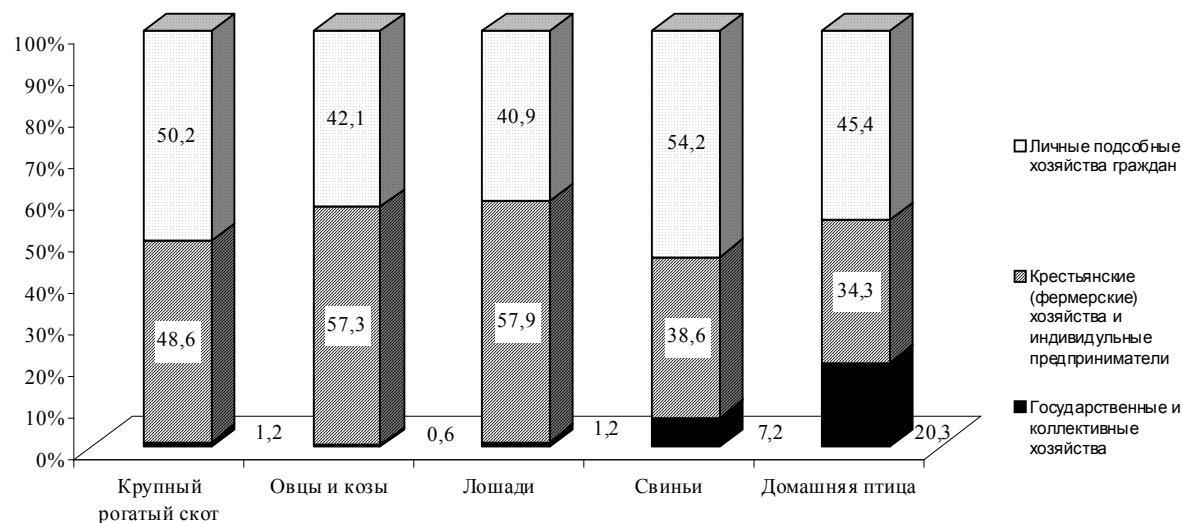

The number of cows in farms of Issyk-Kul oblast increased by 3,4 thsd. heads (by 3,7%), Djalal-Abad oblast – by 4,2 thsd. (by 2,9%), Batken oblast – by 1,3 thsd. (by 2,1%), Osh – by 2,9 thsd. (by 1,8%), Chui oblast – by 1,9 thsd. (by 1,6%).

The share of female sheep and goats in total number of sheep and goats made up 69,0%. Their number increased by 109,9 thsd. heads (or 3,0%). The number of female sheep and goats in farms of Djalal-Abad oblast increased by 4,8%, in Naryn oblast – by 3,4%.

The number of mares aged 3 years and over increased by 4,3%, their share in total number of horses made up 49,6%. The number of mares in farms of Issyk-Kul oblast increased by 2,9 thsd. heads, in Chui oblast – by 1,6 thsd. heads.

The biggest share of livestock and poultry are in peasant farms and private subsidiary plots of citizens.

**Graph 5: Main types of livestock and poultry by farm categories
(as a % to total)**

The number of main types of livestock has increased in peasant farms in comparison with the previous year.

**Table 27: Livestock and poultry by farm categories
(as of the end of the year, heads)**

	State and collective farms		Peasant farms and private subsidiary plots of the population	
	2012	2012 in % to 2011	2012	2012 in % to 2011
Cattle	15872	92,0	1351594	102,3
Sheep and goats	33215	89,0	5390666	102,7
Pigs	3967	77,0	51413	95,1
Horses	4734	91,9	394062	102,7
Poultry	1028029	116,2	4048530	103,0

In addition, as of the end of 2012, there were 32775 rabbits, 73198 mules, 311 camels and 62800 bee families in peasant farms and private subsidiary plots of the population.

Data on availability of livestock and poultry numbers by country, oblasts, towns and cities, regions/rayons, aiyil aimaks (*small villages*) are shown in annexes.

Methodological explanations

The unemployed – people at the age of 16 years and over who during the period under review had no job (income-generating occupation); who were in search for a job i.e. applied to state employment service or used alternative ways of job finding as well as those who were ready to start working.

Gross Domestic Product (GDP) – a general indicator of economic activity of the country, which is calculated in current market prices (GDP nominal) and in comparable prices (GDP real).

Consumer price index for goods and paid services to population (CPI) – characterises the change in the general price level for goods and services over time. The index measures the correlation of the value of actually fixed set of goods and services during the given period to its value during the basic period.

Monthly average nominal salary is calculated by dividing actually accrued salary fund of the staff and part-time employees to the number used for the calculation of average salary and to the number of months in a reporting period.

Average daily per capita calorie characterizes energy value and calories in consumed food products per one household member as well as chemical composition in proteins and fats.

Official unemployment level – is the ratio of people officially registered as unemployed to the number of economically active population expressed in percent.

Availability of food refers to the physical quantities of food at the disposal of the population as a result of domestic food production or market. At the national level availability of food is defined as a combination stocks, commercial import, food aid and own production. Following aspects also refer to availability: climatic conditions, the areas harvested, animal numbers and productivity, producer prices for food, food prices in neighboring countries, and the national policies which determine production, trade, distribution and pricing.

The availability of food per capita is calculated using food balance. A food balance shows for each basic foodstuff the total physical availability and consumption of that foodstuff over a given period of time, usually for 1 year. Total **physical availability** is the sum of opening stocks, production and import in that product in a given period of time. **Total use** is human consumption + animal feed + seeds + losses + exports. Drawn up over a succession of years, food balances usually reveal a trend in total availability, import, export, and the availability of food for human consumption and for fodder. Dividing the annual amount of food available for human consumption by the population gives a key indicator of availability: the average availability of food per capita per year. This measure of food availability is a national average, which does not take into account households' access (i.e. ability to produce, purchase or otherwise obtain) to food.

Access to food refers to the ability of household members to obtain adequate safety and appropriate foods to meet their needs for a healthy and active life. Access can be through production for own consumption, market purchases or donations/transfers. Access differs between households according to employment status, income, family size, location etc. Elements that affect the access also include social security, payment delays in salaries and wages, inflation, the cost of essential foodstuff and other goods and services. National policy, which affects employment, income and inflation, also affects significantly households' access to food.

Use of food refers to the selection, composition, preparation and allocation of food within the household. Utilization of food refers to the ability of the human body to take and use food within the body and convert food into energy. Food use covers knowledge of appropriate diets, and proper allocation of food within the family. The ability of the body to utilize food is affected by its state of health and access to clean drinking water, access to basic health services, food cooking and food storage. The ultimate measure of food security is the nutritional status of the population.

List of Abbreviations

GDP	Gross Domestic Product/ Валовой внутренний продукт (ВВП)
WHO	World Health Organization/ Всемирная организация здравоохранения (ВОЗ)
GMCL	Guaranteed Minimum Consumption Level/Гарантированный минимальный уровень потребления (ГМУП)

Annex

Annex 1. Review of hydro-meteorological conditions on the territory of the Kyrgyz Republic in the 4th quarter of 2012

(Source: according to data of the State Agency on Hydrometeorology of the Ministry of Emergency of the Kyrgyz Republic)

Agro meteorological conditions:

October. Monthly average temperature of air in the most regions of Kyrgyzstan was above the normal by 1...1,5°, in piedmont and mountain regions of Chui, Djalal-Abad oblasts, in the zone of farming of Issyk-Kul oblast, Naryn oblast, in Kara-Suu and Nookat rayons was close to normal, in Alai rayon and Chon-Ashuu Pass was below the multiyear normal by 1...2°.

Rainfall in the most regions was below the normal by 18-78%. During the month, rainfall in Suzak, Jumgal rayons was absent (0%), on the east of Chui Valley, in piedmont and mountain regions of Chui oblast, in Toktogul howe, in Tup and At-Bashy rayons, in Cholpon-Ata town and on the Chon-Ashuu Pass was close to normal by 82-119%.

November. Monthly average temperature of air in the most regions of Kyrgyzstan was below the normal by 1...3°, in Cholpon-Ata town, in Naryn and Ak-Sui rayons was close to normal, on the east of Alai Valley was above the multiyear normal by 1,5°.

Rainfall in the most regions was above the normal by 121-272%, on the Too-Ashuu Pass, in Suusamyr Valley, Talas Valley, in Toktogul howe, in Chychkan tract (range), in Tup, Jeti-Oguz, Jumgal and Naryn rayons was close to normal by 82-113%, in Kara-Bura, Batken rayons, in Cholpon-Ata town, in Kara-Kujur Valley was below the normal by 23-77%.

December. Monthly average temperature of air in the most regions was below the normal by 1...3°, in Chui and Talas valleys were also below the normal by 4...6°, in the zone of farming of Naryn oblast was close to normal, on the east of Alai Valley and in Chatkal Valley was above the multiyear normal by 1...2°.

Rainfall in the most regions was above the normal by 123-339 %, in piedmont and mountain regions of Issyk-Kul, Chui and Djalal-Abad oblasts was close to normal by 82-115%, in the zone of farming of Naryn and Issyk-Kul oblasts was 3-77% of the multiyear normal.

Hydrological conditions in December 2012:

Water content of the most of rivers of the republic was within the norm. Increased outlet of rivers as Alamedin, Ala Archa, Uzun Akmat, Donguz Too, Tar, Kurshab, Kyzyl Suu, in Talas and Naryn riverheads was normal (128-212%). Decreased outlet of rivers as Chon Kemin, Talas (Ak Tash), Padysha Ata, Kara Kuldja and Kegart was normal (71-78%).

It was observed the following ice phenomena: submerged off-shore ice (submerged land-fast ice) and frazil ice – in Naryn and Padysha-Ata rivers; bottom ice and ice gorge – in rivers of Chui basin; ice gorge – in Djyrgalan river; freezing – in Talas (Ak Tash) river, freezing period (*since the third decade of December*) – in Bolshoyi and Malyi rivers. During the period of 16-20th of December, due to hard ice situation, it was observed bottom ice and gorge in Ala Archa river – Kashka Suu water mouth: the water level came up by 6-18 cm, water consumption made up 2,43m³/sec..

Water inflow into the following reservoirs was normal: Orto-Tokoi - 153%, Kirov – 84%. Water inflow in Toktogul reservoir is not calculated due to lack of actual data on outlet to Naryn river – Uch Terek range/transit (hydro post is located in affluent by emissions from Kambarata reservoir).

Condition of Reservoirs as of December 31, 2012

Reservoirs	Changes during a month, mln. m ³	Volume of water in 2012		Volume of water in 2011	
		mln. m ³	as a % of volume	mln. m ³	as a % of volume
Toktogul	-1473	14997	77	17280	89
Orto-Tokoi	+83	273	58	313	67
Kirov	+120	257	47	282	51

NATIONAL STATISTICAL COMMITTEE OF THE KYRGYZ REPUBLIC

QUESTIONNAIRE

for defining user needs in statistical information

Dear user of statistical information,

In order to improve the quality of statistical information and meet demands of all user categories the National Statistical Committee of the Kyrgyz Republic propose you to answer our questions:

Does this publication meet your needs?

What kind of indicators would you like to see in this publication?

We would be very appreciated and grateful if you inform us about shortcomings of our work or give your comments and proposals for improvement of our activity in the field of statistics. Your opinion is very important for us and will be considered mandatory.

Please, send your wishes and recommendations to the following e-mail address: chturdubaeva@stat.kg or NSC Web site www.stat.kg. (Column "feedback")

Thank you in advance for the cooperation.
