### **Kyrgyzstan in the Great Patriotic War**

As of the beginning of 1941 the number of population of the country, according to the estimation, made up 1 million 588 thousand people, having reduced to the beginning of 1946 up to 1 million 457 thousand persons, or up to pre-war level.

Kyrgyzstan directed to the acting army more than 360 thousand people, or every fourth habitant of the country and totally more than 300 thousand new habitants were accepted in years of war<sup>1</sup>. More than 30 thousand of Kyrgyz citizens were directed to enterprises of munitions industry outside the country.

During the Great Patriotic War, the equipment of more than 30 industrial enterprises from the temporary occupied regions of Ukraine, Russia and Belarus were evacuated to the country. New enterprises were built on the base of evacuated enterprises, which began to produce products necessary for front for the short period. They became the major factor of strengthening comprehensive assistance to the front. Among them: the factory «Krasniy Shveinik»; the factory «Krasniy Metallist»; rural machine building plant named by M.V.Frunze; clothing factory of Society for contribution/assistance to defense, aviation and chemical construction; Osh silk producing plant; Novotroitsk, Kant and Belovodsk sugar – mills; Kenaf factory and others. Totally for years of war it was put in place 70 industrial enterprises and over. Mechanical engineering, nonferrous metallurgy, the coal industry, energy industry, some branches of light and food industries were mostly developed. The industrial output volume in 1945 in comparison with 1940 increased by 22 percent, mechanical engineering and metal working production - in 3,5 times, including mechanical engineering - more than in 10 times, electric power production - in 1,5 times.

During the war, collective and state farms of the republic turned over to the defense fund 4.5 million poods (about 74 thousand tons) of grain and 500 thousand poods (more than 8 thousand tons) of meat.

Construction of hydroelectric station "Lebedinovskoie" were renewed due to increased need of evacuated enterprises in electric power, and it was decided to build hydroelectric station -1 "Alamedinskyi", its construction was begun in 1943 and completed in 1945. In 1943,

construction of Big Chui Channel was completed. All these objects were built by method of national construction. In 1942, the Haidarkan mercury industrial complex was put in place. The growth rate of mining works increased sharply due to increased need in coal. Works were done by enterprises itself and it was the basis for further development of specialized mining organizations<sup>2</sup>.

Despite the difficulties of war time, there were also housing construction as well.

In agriculture, works on training of mechanic operators were conducted. In 1941, short-term courses were organized and 2812 tractor operators of which 2787 - women and 570 combine drivers were trained. 303,6 thousand tons of bread and 22,3 thousand tons of potatoes were prepared. The army received more than 54 thousand selected horses from collective and state farms. The economy of the country was reconstructed to the peaceful rails in a short period of time after the victory in the Great Patriotic War.
