The National Statistical Committee of the Kyrgyz Republic;
Sampling survey department.

Food security and poverty information bulletin of the Kyrgyz Republic contains the analysis of the situation on food provision in the country for the 1st quarter of 2011. The bulletin combines and systematizes materials on food availability, its production, indicators of access to food, data on its consumption per capita.

Annexes of the bulletin contain review of hydro-meteorological conditions on the territory of the Kyrgyz Republic in the 1st quarter of 2011, information on average retail prices for food, estimates on food balance for the 1st quarter of 2011 by basic foodstuff, nutrition balance in kind of energy value by results of integrated survey of 5016 households for 9 months of 2009-2010, as well as indicators of food security and children security.

The publication is quarterly.

Copies: 120 in Russian and 35 in English;

The publication is also available in electronic format.

While using statistical data in mass media and scientific papers, disseminating these data through information nets, hard copies, CD discs and other users have to refer to their source (article 17 of the Law on State Statistics).

Conventional signs:

- Event is not existing;
- ... Data are not available;
- 0,0 Negligible and insignificant value.

In separate cases insignificant discrepancies between total and sum of components are explained by rounding.

OVERVIEW

According to preliminary estimates, in January-March 2011, Gross Domestic Product (GDP) calculated by production method was valued at KGS 46586.1 million and in comparison with January-March 2010 GDP has increased by 0.4%.

Page 6

In March 2011, Consumer Price Index characterizing inflation rate, in comparison with the previous month, has made up 102.2% and in comparison with December of previous year – 106.4%.

Page 7

In January-March 2011, gross output of agriculture, hunting and forestry was valued at KGS 12122.9 million. Physical volume index related to the corresponding period of the previous year has made up 100,5%.

Page 9

As of the beginning of April 2011, totally by country, spring crops were planted on 24.5 thsd. hectares, which made up 44.2% to their sown area to the corresponding date of the previous year

Page 9

In January-March 2011, producers prices for sold agricultural products have increased in 1.4 times in comparison with the corresponding period of the previous year.

Page 12

Introduction

Pursuant the Rome Declaration, adopted on November 17, 1996 during the World Food Summit, the Kyrgyz Republic as a member of the international community assumed responsibility to "...conduct a policy aimed to the alleviation of poverty and inequality, provision of physical and economical access to all people and at all times to sufficiently dietary adequate food and as well as to its use".

In 1999, the Government of the Kyrgyz Republic, in cooperation with the European Commission in the Kyrgyz Republic has developed and adopted a National Food Security Policy. The policy (and EC funding under the EC-Food Security Programme) sustains reforms in food security related to such sectors as agriculture and social protection.

Food safety is a physical availability of a foodstuff in the required quantity, possibility of access to indicated foodstuff (the products made in households, and acquired through the market, gifts and other sources) and consumption of foodstuff in that quantity which are necessary for maintenance of food needs.

Food and nutrition security presumes the availability of adequate food (in the context of quantity, quality, safety and social and cultural acceptability), provision of access and adequate consumption and digestion of such products by all persons at any time for an active and healthy life.

Food Availability: physical existence of quantitatively and qualitatively adequate and safety food items at any moment of time.

Access: all households and household members have sufficient resources to obtain appropriate food (through production, purchase or donation);

Stability: continuous provision of availability, access and use of food. If there is no stability, individuals will suffer from chronic or transitory food insecurity

The aim of the KR Food Security and Poverty Information Bulletin is to provide up-to-date and reliable information and analysis of the current food security situation in the country.

The publication of information bulletin was prepared by the National Statistical Committee of the Kyrgyz Republic. The publication contains materials provided by State Agency on Hydro Meteorology of the Ministry of Emergency of the Kyrgyz Republic. The bulletin was financed by the European Commission in the Kyrgyz Republic and technical support was provided by UN FAO.

Section I. Socio-Economic Indicators

The below socio-economic indicators characterizes the general situation of economy in the country for the analysis of food security situation.

1.1. Gross Domestic Product

Gross domestic product (GDP) calculated by *production method*, in January-March 2011, according to preliminary estimation, has been valued at 46586,1 million KG Som and has increased by 0,4% in comparison with January-March 2010. Real growth rate of GDP excluding «Kumtor» mining company made up 1,8 %. The volume of GDP calculated per capita made up 8,9 thsd. soms and in comparison with the corresponding period of the previous year has decreased by 0,7 %.

| Chui oblast | 100,8 | 100,3 | 110,9 |
| Bishkek city | 96,7 | 80,2 | 99,7 |
| Osh city | 101,2 | 101,9 | 101,5 |

2.1.3. Producers Price Index of Agricultural Production

Producers price index. In January-March 2011, as compared with the corresponding period of the last year, producer prices for realized (sold) agricultural products have increased by 1,4 times.

**Table 15: Producers price indices of agricultural production
(as a percent)**

| | Total | | including for production | | | |
|----------|------------------------|----------------------------------|--------------------------|----------------------------------|------------------------|----------------------------------|
| | to the previous period | to December of the previous year | Crop production | | Livestock | |
| | | | to the previous period | to December of the previous year | to the previous period | to December of the previous year |
| January | 106,3 | 106,3 | 112,9 | 112,9 | 99,0 | 99,0 |
| February | 104,4 | 110,9 | 106,5 | 120,3 | 101,8 | 100,8 |
| March | 99,5 | 110,5 | 99,9 | 119,0 | 100,3 | 101,1 |

In comparison with January-March 2010, the highest rise of prices for grain – by 1,9 times, vegetables- by 1,8 times and meat – by 1,2 times was noted.

**Table 16: Producers price index of selected types of agricultural production in January-March 2011
(as a percent)**

| | Grain total | Wheat | Vegetables | Potatoes | Meat (in live weight) | Raw milk | Eggs |
|---|-------------|-------|------------|----------|-----------------------|----------|-------|
| <i>To the previous month</i> | | | | | | | |
| January | 117,3 | 114,9 | 104,6 | 138,0 | 104,0 | 88,5 | 105,5 |
| February | 115,6 | 115,2 | 110,4 | 93,6 | 103,3 | 97,8 | 108,4 |
| March | 103,7 | 106,9 | 99,7 | 90,1 | 99,7 | 102,2 | 97,8 |
| <i>To the corresponding period of the previous year</i> | | | | | | | |
| January | 174,6 | 193,9 | 165,7 | 229,3 | 112,6 | 90,3 | 109,0 |
| February | 197,5 | 220,6 | 185,6 | 190,0 | 116,8 | 100,9 | 125,6 |
| March | 204,9 | 229,1 | 179,6 | 165,7 | 116,5 | 100,9 | 117,1 |
| January-March | 192,5 | 214,8 | 176,9 | 193,3 | 115,3 | 97,1 | 117,1 |

2.1.4. Trade of Basic Foodstuff

As follows from Food Balance Sheet (Annex 3), Kyrgyzstan, in general, is provided with foodstuff. Data on export and import of selected foodstuff are given below:

**Table 17: Import and export of basic foodstuff
(thsd. tons)**

| | I st quarter | |
|---|--------------|-------|
| | 2010 | 2011* |
| Import | | |
| Bakery products expressed in grain | 96,8 | 110,6 |
| Sugar and confectioneries | 19,5 | 19,9 |
| Vegetable oil | 8,0 | 6,2 |
| The share of foodstuff in total import, % | 14,0 | 16,7 |
| Export | | |
| Milk and dairy products expressed in milk | 14,8 | 6,4 |
| Sugar and confectioneries | 0,1 | 0,3 |
| The share of foodstuff in total export, % | 5,7 | 9,3 |

* Data are preliminary.

According to preliminary data, the share of foodstuff export in total export value for the 1st quarter of 2011 has made up 9,3 %.

2.1.5. Availability of Food Per Capita

The analysis of food balance shows that the availability of foodstuffs per capita in average for month remains stable (see Table 18 and Annex 3).

Table 18: Level of consumption of basic foodstuff
(*per capita, kg per month*)

| | I st quarter | |
|--|---------------------|--------------|
| | 2010 | 2011* |
| Bakery products (expressed in grain) | 16,0 | 16,1 |
| of which wheat processed products (expressed in grain) | 13,4 | 14,1 |
| Potatoes | 8,2 | 8,3 |
| Vegetables and melons | 12,6 | 11,7 |
| Fruits and Berries | 1,4 | 1,0 |
| Sugar and confectioneries | 1,7 | 1,6 |
| Meat and meat products | 3,4 | 3,5 |
| Milk and dairy products | 12,2 | 12,3 |
| Eggs, pieces | 6,2 | 6,2 |
| Vegetable fats | 1,0 | 1,0 |

*Data are preliminary

More detailed information is provided in Annex (table 3 «Food balance»²).

² Food balances were compiled in accordance with «Methodology of calculation of basic foodstuff balance», approved by the Decree of the National Statistical Committee of the Kyrgyz Republic from September 15, 2010, №19.

Section III. Access to Food

Access: Foodstuff must be accessible both in terms of their physical availability and in terms of purchasing power.

3.1. Consumer Prices Analysis

In the 1st quarter of 2011, *Consumer Price Index*, characterizing the rate of inflation, has made up 106,4 %, with price growth rate on average for month – 2,1 %. In the 1st quarter of 2010, inflation rate made up 4,8 % with monthly average price growth rate - 101,6 %.

In the 1st quarter of 2011, consumer prices for foodstuff (including alcoholic beverages and tobacco) have increased by 10,1 %, against 4,8 % in January-March 2010.

Since the beginning of the year, bakery products and cereals have increased totally by 13,5 % (of which cereals – by 1,6 times, flour – by 18,8 %, pasta – by 14,4 %, bread – by 8,8 %, rice – by 1,3%). The significant increase of prices for fresh meat (by 10,4 %), sugar (by 15,2 %) was observed as well.

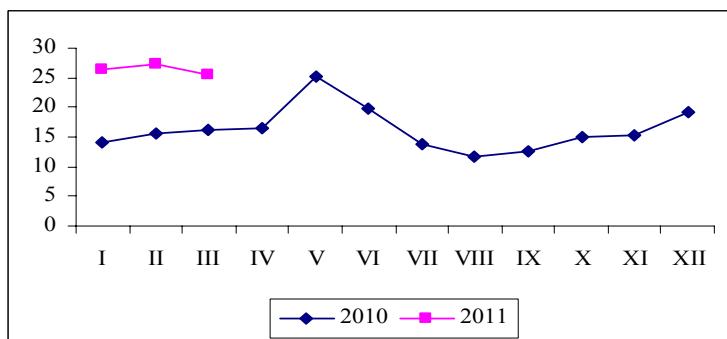

In January-March 2011, prices for fruits and vegetables have increased by 24,4 % (in January-March 2010 - by 19,7 %). Hereat, prices for fruits have increased 4,8 % and vegetables - more than a third.

In January-March 2011, growth of prices was noted in all regions of the country. The highest increase of prices was observed in Issyk-Kul oblast (by 7,9 %) and Talas oblast (by 9,7 %). The maximum increase of prices for foodstuff and nonalcoholic beverages was recorded in Talas oblast (by 16,3%).

Potatoes. During the 1st quarter of 2011, it had been observed the decrease of cost of potatoes (by 3 %). In comparison with the 1st quarter of 2010, the average consumer price has increased by 73,4 % and made up 26,46 soms per kilo.

Graph 1: Monthly average consumer prices for potatoes

(soms per kg)

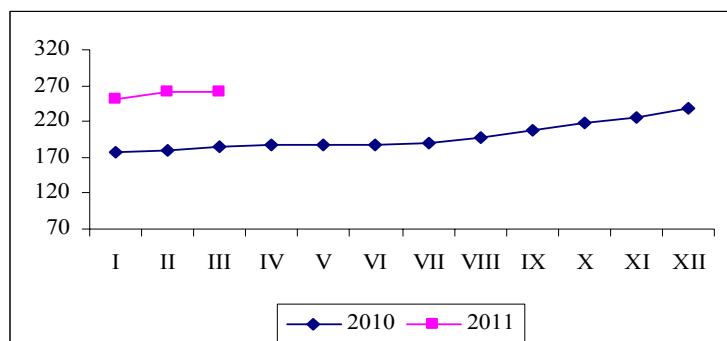

Mutton. In the 1st quarter of 2011 in comparison with the 1st quarter of 2010, the average price for mutton has increased from 185,24 to 259,16 soms per kilogram or the increase was 39,9 %.

Beef. On average from January to March 2011, prices for beef have increased from 251,59 soms per kilogram in January to 261,85 soms in March and in comparison with the 1st quarter of 2010 their growth have made up 42,9 %.

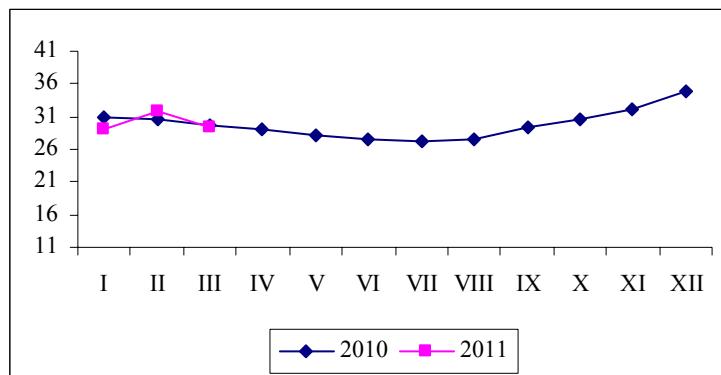

Graph 2: Monthly average consumer prices for beef

(soms per kg)

Fresh milk. In the 1st quarter of 2011, prices for milk on average have increased by 1,5 % and the average consumer price for the 1st quarter of 2011 has remained at the level of the previous year.

Graph 3: Monthly average consumer prices for fresh milk
(soms per kg)

3.2. Money Income of Population

According to results of households sampling survey, nominal money income per capita for January-September 2010 was valued at 2577,2 KG soms per month and in comparison with the previous year have increased by 9,4 %. The main source of population money income was income from labour activity, its share in income structure made up 66,7 %. The second significant article about population income was incomes from social transfers – 13,2 % and from sale of agricultural output produced in private subsidiary plot – 12,8 %.

Monthly average per capita real money income of the population in January-September 2010 was valued at 2456,8 KG soms. The growth rate of real average per capita money income has increased by 4,3 % as compared to the previous year.

Size of average per capita disposable income was valued at 2441,2 KG soms. Average per capita disposable money incomes of population living in Bishkek city (by 817,4 soms) and Chui oblast (by 360,7 soms) were higher than average republican level. Disposable incomes of population living in Djalal-Abad oblast (2326,3 soms), Batken oblast (2296,3 soms) and Issyk-Kul oblast (2265,3 soms) were close to average republican level. Incomes of population living in Osh oblast (2138,0 soms), Naryn oblast (1845,9 soms) and Talas oblast (1770,2 soms) were considerably less than average republican level.

The structure of disposable money incomes of households differ significantly depending on their place of residence. In urban areas, income from labour activity in total revenue has made up 76,2 %, in rural areas – 56,7 %. The second most important source of income in rural areas was the proceeds of the sale of products produced in private subsidiary plots of population and their share made up 22,2%.

Distribution of total money income by quintile groups of population is for the benefit of 20 % of population with the highest incomes, who have concentrated 45 % of all money income, which is higher by 1,5 % in comparison with the corresponding period of the previous year.

Table19: Population money income by quintile groups
(as a percent)

| | January–September 2009 | January–September 2010 |
|-----------------------------------|---------------------------|---------------------------|
| Money income -total | 100 | 100 |
| including 20 percent groups | | |
| he first (with the lowest income) | 6,4 | 6,0 |
| the second | 11,2 | 10,7 |
| the third | 16,0 | 15,6 |

| | January–September 2009 | January–September 2010 |
|--|---------------------------|---------------------------|
| the fourth | 22,9 | 22,8 |
| the fifth (with the highest income) | 43,5 | 45,0 |
| Income ratio of 20% highest and 20% lowest income groups of population, by times | 6,7 | 7,5 |

The monthly average nominal wages/salaries per employee in January–March 2011 (excluding small enterprises) was valued at 7350 KG soms and in comparison with January–March 2010 has increased by 16,2 %, and its real size calculated including consumer price index has decreased by 3,4%.

Based on official exchange rate stated by the National Bank of the Kyrgyz Republic, monthly average wage/salary in January–March 2011 has made up 155,1 US dollars.

Table 20: Monthly average nominal and real wages/salaries on the territory¹ in January–March 2011

| | Soms | As a percent to the corresponding period of the previous year | | Real salaries/wages as a percent to the corresponding period of the previous year |
|------------------------|-------------|---|--------------|---|
| | | 2010 | 2011 | |
| Kyrgyz Republic | 7350 | 113,4 | 116,2 | 96,6 |
| Batken oblast | 4900 | 113,8 | 112,7 | 89,0 |
| Djalal-Abad oblast | 6138 | 109,7 | 114,4 | 93,8 |
| Issyk-Kul oblast | 5209 | 111,7 | 122,2 | 102,9 |
| Naryn oblast | 6292 | 112,2 | 113,8 | 89,8 |
| Osh oblast | 4073 | 112,9 | 116,9 | 94,9 |
| Talas oblast | 5595 | 125,7 | 119,1 | 101,3 |
| Chui oblast | 6203 | 114,8 | 115,9 | 95,8 |
| Bishkek city | 10488 | 112,5 | 116,0 | 97,6 |
| Osh city | 6615 | 119,6 | 114,5 | 93,0 |

¹ Excluding small enterprises.

In January–March 2011, wages/salaries of employees engaged in financial activity, transport and communication, production and distribution of energy and electricity, gas and water was significantly higher than average republican level. Its lowest level was in education, health, agriculture, provision of communal, social and personal services.

In January–March 2011, growth of wage/salary was observed in all types of economic activity, but the most significant one – transport and communication, mining, production and distribution of energy and electricity, gas and water.

The sum of total debt on payment of wages/salaries as of April 1, 2011 by country as a whole has increased by 20,9 % as compared to the same date of 2010, and has decreased by 4,9 % as compared to the same date of the previous month.

Table 21: Total debt on payment of salaries/wages on the territory¹ as of April 1, 2011

| | Mln. Soms | As a % to the corresponding period of | |
|------------------------|--------------|---------------------------------------|--------------------|
| | | the previous year | the previous month |

Methodological explanations

The unemployed – people at the age of 16 years and over who during the period under review had no job (income-generating occupation); who were in search for a job i.e. applied to state employment service or used alternative ways of job finding as well as those who were ready to start working.

Gross Domestic Product (GDP) – a general indicator of economic activity of the country, which is calculated in current market prices (GDP nominal) and in comparable prices (GDP real).

Consumer price index for goods and paid services to population (CPI) – characterises the change in the general price level for goods and services over time. The index measures the correlation of the value of actually fixed set of goods and services during the given period to its value during the basic period.

Monthly average nominal salary is calculated by dividing actually accrued salary fund of the staff and part-time employees to the number used for the calculation of average salary and to the number of months in a reporting period.

Average daily per capita calorie characterizes energy value and calories in consumed food products per one household member as well as chemical composition in proteins and fats.

Official unemployment level – is the ratio of people officially registered as unemployed to the number of economically active population expressed in percent.

Availability of food refers to the physical quantities of food at the disposal of the population as a result of domestic food production or market. At the national level availability of food is defined as a combination stocks, commercial import, food aid and own production. Following aspects also refer to availability: climatic conditions, the areas sown and harvested, crop yields, animal numbers and productivity, producer prices for food, food prices in neighboring countries, and the national policies which determine production, trade, distribution and pricing.

The availability of food per capita is calculated using food supply/consumption balance sheet (food balance). A food balance shows for each basic foodstuff the total physical availability and consumption of that foodstuff over a given period of time, usually for 1 year. Total **physical availability** is the sum of opening stocks, production and import in that product in a given period of time. **Total use** is human consumption + animal feed + seeds + losses + exports. Drawn up over a succession of years, food balances usually reveal a trend in total availability, import, export, and the availability of food for human consumption and for fodder. Dividing the annual amount of food available for human consumption by the population gives a key indicator of availability: the average availability of food per capita per year. This measure of food availability is a national average, which does not take into account households' access (i.e. ability to produce, purchase or otherwise obtain) to food.

Access to food refers to the ability of household members to obtain adequate safety and appropriate foods to meet their needs for a healthy and active life. Access can be through production for own consumption, market purchases or donations/transfers. Access differs between households according to employment status, income, family or household size, location etc. Elements that contribute to access also include social security benefits, payment delays in salaries and wages, inflation, the cost of essential foodstuff and other goods and services. National policy, which affects employment, income and inflation, also affects households' access to food.

Use of food refers to the selection, composition, preparation and allocation of food within the household. Utilization of food refers to the ability of the human body to take and use food within the body and convert food into energy. Food use covers knowledge of appropriate diets, and proper allocation of food within the family. The ability of the body to utilize food is affected by its state of health and access to clean drinking water, access to basic health services, food cooking and food storage. The ultimate measure of food security is the nutritional status of the population.

Annex

Review of hydro meteorological conditions on the territory of the Kyrgyz Republic in the 1st quarter of 2011.

(Source: State Agency on Hydrometeorology of the Ministry of Emergency of the Kyrgyz Republic)

Agro meteorological conditions:

January. Monthly average temperature of air in Chui oblast and Chon-Ashuu Pass was below the normal by 1,5...3 degrees, in Osh, Djalal-Abad and Batken oblasts was above the normal by 1...1,5 degrees, in other part of territory – close to normal.

Rainfall in the most regions of the country was below the normal by 20-64%, in Tup and Kara-Kulja regions was close to normal by 80-108%, on Chon-Ashuu Pass was above the normal by 214%.

February. Monthly average temperature of air in the most regions was above the normal by 1...2 degrees, in zone of husbandry of Naryn oblast, in Kumtor tract in Suusamyr valley was above the normal by 5...7 degrees, in Jaiyl, Chui, Issyk-Ata regions of Chui oblast, in Bazar-Korgon, Aksyi regions of Djalal-Abad oblast and Talas Valley was close to normal, in pediment regions of Chui oblast was below the normal by 1 degree.

Rainfall in the most regions of the country was above the normal by 120-200%, in Kumtor tracts, Chyckhan and Chatkal Valleys was normal by 236 - 267%, in the west of Issyk-Kul region, in Ak-Suu, Tup and Kara-Buura regions was close to normal by 90 - 100%, in Leilek region was below the normal by 25%.

March. Monthly average temperature of air in the most regions was close to normal, in Suusamyr Valley, in Kara-Suu, Nookat, Bazar-Korgon, Aksyi regions, in the east of Alai Valley, in Kumtor tracts, Chyckhan, in Toktogul Howe and in zone of husbandry of Naryn oblast was above the normal by 1...3 degrees, on Chon-Ashuu Pass was below the normal by 1 degrees.

Rainfall in the most regions of the country was close to normal (90-110%), in Alamudun, Nookat, Alai, Issyk-Kul, Naryn regions was normal (140-205%), in Leilek, Jumgal, At-Bashy regions, on Chon-Ashuu Pass and Kara-Kujur Valley was below the normal (12-62 %).

Hydrological conditions in March 2011:

Increased outlet of rivers as Ak-Suu, Djyrgalan, Ala-Archa, Sokuluk, Ur Maral, Kumush Too, Malyi Naryn, Padysha Ata, Yassy, Kara Kulja, Tar, Kurshab, Aravan Sai and Kyzyl Suu, average flow of Talas and Naryn rivers, Chu riverhead was normal (124-185 %). Water content of other rivers of the republic was within the norm.

Water inflow into the following reservoirs was normal: Orto-Tokoi - 138%, Kirov – 117%, Toktogul – 136%.

Table 1: Condition of Reservoirs as of March 31, 2011

| Reservoirs | Changes during a month, mln. m ³ | Volume of water in 2011 | | Volume of water in 2010 | |
|------------|--|-------------------------|---------------------|-------------------------|---------------------|
| | | mln. m ³ | as a % of volume | mln. m ³ | as a % of volume |
| Toktogul | -859 | 15413 | 79 | 9704 | 50 |
| Orto-Tokoi | +36 | 471 | 100 | 463 | 99 |
| Kirov | +67 | 534 | 97 | 503 | 91 |
